1. The PROPOSED COUNT FOR HEINZ (claims 22-30) filed by the applicant on 4/20/2004 is not considered as a count. The reason is that these claims were not considered patentable.
2. The request for AN INTERFERENCE WITH TWO PATENTS is objected to because it does not seem to comply with 37 CFR 41.202. Specifically the recitation that all the claims in alternative comprise the count adds nothing to identify what the applicant believes the count or counts to be. And, because of this the indication of the claims corresponding "to the count" don't satisfy 41.202 either. Applicant requires indicating what count or counts are clearly present in the request. Also, applicant requires showing how the claims correspond to the count. MPEP 2304.02, 37 CFR 41.202.
3. Claims 43-45, 47-56, 58-63 are rejected under 35 U.S.C. 135(b)(1) as the claims must be present or copied within one year from the issue date or the publication date. Because application No. 09/817,268 that became patent no. 6,677,896 was published on 10/25/2001, the one year requirement runs from that date.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dao L. Phan whose telephone number is (571)272-6976. The examiner can normally be reached on M-F 9:00-5:30.
